

## **Bible Study for April 17-23, 2023**

**Read:** 1 Peter 1:13-23

### **Notes:**

God is well aware that humans fall into sin, reject God's ways, live only for themselves, and lead lives that separate them from God. In spite of this, God still sent Jesus to be the sacrifice for our sinful ways so that we might be called to live a life that glorifies God by serving our neighbor and showing us our true precious value.

### **Questions to Ponder:**

What did you do as a child that got you into real trouble?

See if you can figure out the 5 commands Peter gives us in verses 13-15. Using them, how would you define the word "holy"?

Looking in verses 17-21, what reasons does Peter give for these commands?

How does Peter's call to holiness challenge you at home? Work? Community?

In terms of time, effort, and money spent, which comes first for you: perishables or "forever" items?

Under stress, what helps you to set your hope fully on the grace of God, rather than rely on your own wits to solve a problem?
